#### Product Description:

Qwik Dress has a thick, creamy consistency that is easily applied onto any surface. This is a highly concentrated product that may be diluted with water to achieve a desired shine. Even when diluted with water, Qwik Dress dries to a medium high, non-greasy shine.

Qwik Dress can be used on vinyl, leather, rubber and plastic. Protect all of these surfaces from the elements while making them look great. Qwik Dress protects these surfaces from UV damage, detergents, physical abrasion and other items that can harm these surfaces.

Qwik Dress will not turn yellow over time and it is not sticky or greasy. Therefore, it will not attract dirt.

The thick consistency of Qwik Dress prevents flinging of the product off the tires.

Most customers use Qwik Dress straight on tires and exterior trim. They dilute the product 1:1 with water for interior surfaces.

#### Advantages:

- ◆ Long-Lasting
- ◆ Non-greasy shine
- ◆ Water-based formula
- ◆ Product contains zero VOCs
- ◆ Perfect for interior and exterior use
- ◆ Dilute with water to achieve desired shine.
- ◆ Exceeds all State and Federal regulations

#### Part Numbers:

- ◆ 1 gallon bottle # 13-304
- ◆ 5 gallon tighthead # 13-305
- ◆ 55 gallon plastic drum # 13-308

#### Directions:

1. Clean area using the appropriate Mark V cleaner to remove grease, grime and dirt.
2. Apply Qwik Dress by spraying or wiping onto surface
3. Allow product to dry.
4. Remove any puddles of product that did not dry to prevent flinging.

Do not use on surfaces where slipperiness may be dangerous. Do not use on brake pedals, steering wheels, and other control surfaces.
